U. S. Grand Jury in Chicago Finds 166 in Nationwide Conspiracy.

"Plotted to Render Enemy Stronger and Our Own Beloved Country Weak."

CHICAGO, Sept. 28 .- Formal return of a blanket indictment charging a nationwide conspiracy to hamper the Government during the war was made to-day in the United States District Court here against 166 leaders of the Industrial Workers of the World.

Arrests speedily followed the return. Almost before the court proceedings had reached the stage of the discharge of the Grand Jury Deputy United States Marshale were on their way to the local I. W. W. headquarters in automobiles, denated and driven by women, and quickly returned to the Federal Building

bringing prisoners with them.

In the first hour thirty-five men were thus haled into the United States Marshal's office and later were questioned by investigators for the Department of Justice. Among the first to be taken in custody was William D. Haywood, secretary of the national organization of the 4, W. W., who was questioned Sep-tember 5 when the headquarters of the L. W. W. in various cities were raided by the Government. Besides Haywood the men arrested nere included Richard Brazier, Spokane, Wash.; Herbert R. Collie, San Francisco; James Fussee, Des Moines, Iowa, and Earl Lewis, Huntington, W. Va.

After the first automobile loads had reached the Federal Building more persons were taken into custody until ap-proximately 150 had been brought in to be questioned. Sixteen were taken in a second descent on the I. W. W. head-quarters. As fast as the men were questioned they were returned to the sustody of the Marshai. Many of them

"The activities of these defendants have been directed against what they conceived, or pretended to conceive, to be the misguided attitude of the world at large toward persons not possessed of property, the result being that this time of general stress and strain has been seized upon because, as they insist, the opportunity was here and was now pre-sented to make effective those secret and covert processes of destruction which traftorougly employed while pre-

Special Despatch to Tun Sun. WASHINGTON, Sept. 28. - President Wilson has asked Col. E. M. House, his mofficial advisor, to take charge of the work of collecting historical and in-

This data will be compiled primarily to assist American representatives at the peace conference after the war, but may also be used in the meantime to help guide the Government in formulating policies. It has no bearing on peace negotiations or negotiations of any kind with foreign Governments which, of course, come within the province of the President and the State Department. Col. House will not go to Europe nor will he consult foreign representatives.
